

THE WORLD RENOWNED ULTRA FACIAL

ADVANCED SKIN CARE

CACI Ultra Non-Surgical Face-Lift

60 minutes ~ \$225

6 Series \$210 per treatment • 12 series \$ 200 per treatment

Return your skin to its youthful form. Utilizing the world-leading micro-current technology, the CACI International Ultra, this treatment instantly tones, lifts, firms and reeducates sagging muscles of the face. This treatment is highly recommended for those seeking a non-invasive and safe alternative to plastic surgery. Available as a single service, recommended as a series of 6 or 12 treatments.

Ultrasonic Microdermabrasion

30 minutes ~ \$95/\$45.00 in any facial

6 series \$85 per treatment • 12 series \$75 per treatment

Ultra-sound based microdermabrasion is an advanced alternative to traditional microdermabrasion. This pain-free and non-invasive treatment skillfully abrades the surface of the skin; instantly removing dead skin cells, improving cellular turnover, and evening skin tone. Ultra-sound technology is safe enough to use on acne, scars, blemishes, and hyper-pigmentation.

CACI Ultra Eye Lift

15 minutes ~ \$95/\$45 in any facial

Added to any facial \$85 (initial booking is required)

Micro-current technology is used for this targeted lifting treatment. Instantly tones, firms and reeducates the muscles of the eye area. Perfect for a special occasion or a quick spa pick me up.

Ultrasonic Product Infusion

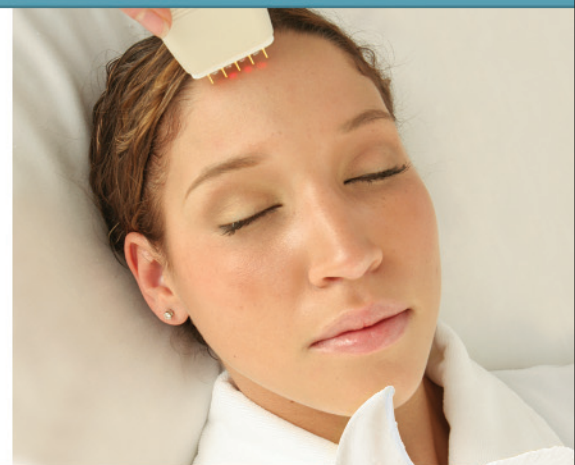

15 minutes ~ \$95/\$45 in any facial

Target your specific skin care concerns with a combination of ultrasound and professional products. Ultrasonic waves help deeply infuse specialty products, selected by your esthetician, and deliver essential nutrients to the deepest layers of the skin. Uncover and restore your natural glow in minutes.

LED Light Therapy

15 minutes ~ \$95/\$45 in any facial

Treat troublesome acne or target specific wrinkles with the power of red and/or blue LED light therapy. Red LED light is able to stimulate the body's own cell regeneration while decreasing healing time and reducing redness in the skin. Blue LED light is used to address the acne bacteria that live in the pores and help eliminate unsightly breakouts.
